

LES TABLES DE JOSÉPHINE

Creators of Ambiances Around the Table

Les Tables de Joséphine is a styling and creative studio dedicated to designing unique atmospheres centered around the art of the table.

We imagine and craft table settings as complete worlds of their own.

Behind every composition lies the desire to celebrate togetherness, beauty, and the joy of sharing a moment. Each table tells a story — blending vintage finds, bold colors, and unexpected combinations. Authenticity, emotion, and curiosity guide each of our creations.

OUR APPROACH

We love projects with soul — whether it's an intimate dinner, a brand launch, or a large-scale event. Through a simple and thoughtful conversation, we design tailor-made atmospheres: a table that feels like you, where every detail matters.

Combining scenography, styling, and art direction, *Les Tables de Joséphine* brings together craftsmanship, sensitivity, and visual boldness to create poetic, living, and memorable settings.

We enjoy collaborating with brands, hotels, and creatives who share our eye for beauty and detail — imagining together unique experiences around the table.

LET'S CREATE SOMETHING TOGETHER

Do you have a project, an idea, a story to tell?
